

Fragment

android::support::v4
::app::LoaderManager
::LoaderCallbacks< Cursor >

org.buildmlearn.toolkit.videocollectiontemplate.fragment.
DetailActivityFragment

```
graph BT; A[org.buildmlearn.toolkit.videocollectiontemplate.fragment.DetailActivityFragment] --> B[Fragment]; A --> C[android::support::v4::app::LoaderManager::LoaderCallbacks< Cursor >];
```

The diagram illustrates the class hierarchy for DetailActivityFragment. It is a subclass of both the standard Android Fragment class and the LoaderManager.LoaderCallbacks interface from the support library.
